-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In response to the Election/Restriction requirement received on 30-Sept-2006: claims 27-31 have been elected without traverse for examination and claims 1-26 and 32-41 have been cancelled without prejudice.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 27-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Garden United States Patent 6,352,608.

As per claim 27, Garden discloses a backing layer formed of water-resistant material and having a front surface and a rear surface (see at least, col. 8, lines 31-34); a layer of adhesive deposited on the front surface of the backing layer (see at least, col. 8, lines 61-62); and a label having a front surface

Art Unit: 3627

on which information may be printed and a rear surface adhered to a portion of the front surface of the backing layer by the adhesive, the label being sized so that a portion of the front surface of the backing layer not covered by the rear surface of the label may be folded over the front surface of the label to substantially seal the label within the backing layer (see at least, col. 8, lines 17-35 and 58-67 and col. 9, lines 1-4).

As per claim 28, Garden discloses further including a removable waste layer adhered to the portion of the front surface of the backing layer not covered by the label, wherein the waste layer may be removed to expose the layer of adhesive on the portion of the front surface of the backing layer not covered by the label so that the backing layer may be folded over and adhered to the front surface of the label (see at least, col. 8, lines 23-27; FIG. 4, "35").

As per claim 29, Garden discloses wherein the label is formed of paper material (see at least, col. 8, lines 34-38).

As per claim 30, Garden discloses wherein the backing layer is formed of poly film material (see at least, col. 8, lines 31-34).

Art Unit: 3627

As per claim 31, Garden discloses further including a hole formed in the label and a pair of holes formed in the backing layer that are aligned with the hole formed in the label when the backing layer is folded over the label, the aligned holes operable to receive a key ring (see at least, FIG. 3).
